Sweden is now the rape capital of the West. Instead of protecting their people, their media covers up the reasons why, calling anyone who tells the truth a racist. Being "racist" now just means being honest.

The incidents we have had, where women have been assaulted, have been very violent.

Swedish police have given up trying to protect Swedish women from the exponential rise of rapes and gang rapes by newly-arrived Arab and North African migrants.

Police Chief of Östersund, Stephen Jerand, advised all women to not go out after sunset because they are likely to be raped or "something more terrible". He says the rapes the police investigate are especially violent and often lead to serious injury or the death of the victims. These incidents are not just limited to "bar environment", he says, "but also to women traveling from or to work".

# 1 IN 4 SWEDISH WOMEN WILL BE RAPED AS SEXUAL ASSAULTS INCREASE 500%

Sweden now has the second highest number of rapes in the world, after South Africa, which at 53.2 per 100,000 is six times higher than the United States. Statistics now suggest that 1 out of every 4 Swedish women will be raped.

Gang raped.

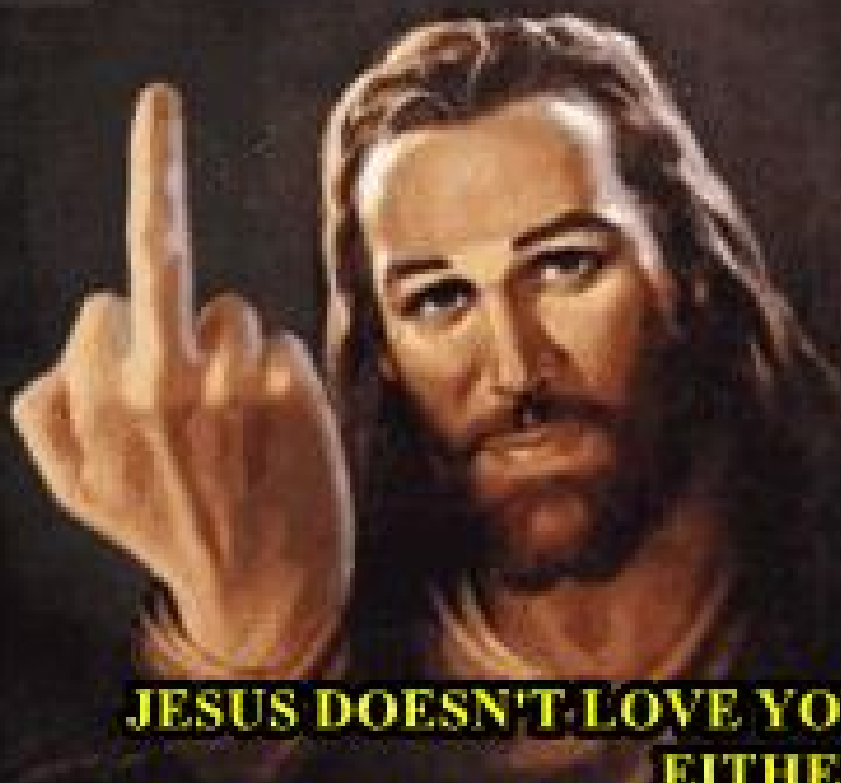

Too many of us females  
sided against men.  
When we are in need of  
protection and support,  
we can expect the  
same lack of loyalty.

Too many of my sisters had sided against the black man for money. When you are in need of protection and support, expect that same lack of loyalty.
